THE LISTENING TAPESCRIPT

From: http://www.listenAminute.com/n/natural_disasters.html

I don't know about you, but I think there are more natural disasters now than before. Every time I turn on the news there's some kind of disaster. There are bushfires in Australia and California, earthquakes in China, hurricanes in Mexico and droughts in Africa. I'm sure global warming is creating more natural disasters. I'm lucky. Where I live, we don't really have natural disasters. I've never experienced anything like the things on TV. Japan has many natural disasters. They have earthquakes, typhoons, flooding, volcanoes, all kinds of things. They are lucky they have the money to deal with them. There are countries in Africa that aren't rich. When a natural disaster hits them, everyone suffers terribly.
